

# 30<sup>TH</sup> ACSB MEETING SUMMARY REPORT

AGENDA ITEM	TOPIC	DISCUSSION	DECISION
4.2	Triclosan	<p>Listing of Triclosan in ACD Annexes</p> <p><i>To clarify the listing of Triclosan in ACD Annexes VI and III, and also the treatment of multifunctional ingredients</i></p> <p><i>Response from European Commission on the further clarification on the use of Triclosan other than as anti-microbial agent</i></p> <p><i>Clarification from Cosmetic Europe on the Irish legislation of cosmetic products</i></p>	<ul style="list-style-type: none"> <li>• No change to the ACD Annex listing of Triclosan;</li> <li>• In Singapore it can only be used as a preservative, not for any other purposes.</li> </ul>
4.3	Peanut Oil and Hydrolyzed Wheat Protein (EU2017/2228)	<p>Indonesia reported the result of the further review on the inclusion of new entries for Peanut Oil (#322) and Hydrolyzed Wheat Protein (#323) in ACD Annex III</p>	<ul style="list-style-type: none"> <li>• Indonesia would not proceed with the inclusion of new entries in Annex III</li> <li>• Indonesia will no longer require a label warning statement for these ingredients</li> </ul>
4.4	Malachite Green	<p>Philippines reported on the safety information gathered from the industry on the reported use of Malachite Green</p> <ul style="list-style-type: none"> <li>• CAS 2437-29-8</li> <li>• CAS 61725-50-6</li> </ul>	<ul style="list-style-type: none"> <li>• No change to the Annexes</li> <li>• Industry to provide safety data to evaluate and decide whether to add CAS 2437-29-8 and CAS 61725-50-6 in Annex II</li> </ul>

## 30<sup>TH</sup> ACSB MEETING SUMMARY REPORT

4.5	1,4 Dioxane	ACA updated the feedback from the industry on the time required to achieve the 10ppm target	<ul style="list-style-type: none"> <li>• Grace period for compliance: 1)19 June 2020 for industry to meet the 25ppm limit; 2)19 June 2023 to comply with the 10ppm limit for contaminants for cosmetics</li> <li>• ACA to compile all available international test method on detection of 1,4-Dioxane in cosmetics product for review by ACTLC</li> </ul>
4.6	Tagetes	<p>Malaysia and Philippines updated on the result of the review of the proposal to add Tagetes Erecta to ACD Annex II and to add Tagetes Patula and Tagetes Minuta in ACD Annex III with the same restrictions as in EU 2018/978</p> <p>ACA presented the investigation into the safety concern that had caused EU to set the prohibition on the use of the 2 fragrance ingredients in sunscreen products and products marketed for exposure to natural/artificial light</p>	<ul style="list-style-type: none"> <li>• Tagetes Patula and Tagetes Minuta added to Annex III. Grace period: w.e.f 19 December 2020,</li> <li>• ACA to review Tagetes Erecta and to be discussed during the next ACSB Meeting</li> </ul>

## 30<sup>TH</sup> ACCSB MEETING SUMMARY REPORT

4.7	Annex VI Clarifications and Corrections	<p>Update by Singapore, Thailand and ACA on the review of the revision to the preamble text to Annex VI due to the insufficient clarity on the permitted use of Annex VI listed preservative substances for other purposes.</p> <p>Proposed additions:</p> <ul style="list-style-type: none"> <li>• Point 3: The substances not marked with the symbol (+) listed in this Annex can have other purposes apart from inhibiting the development of micro-organisms in the product, in such case the concentration must not exceed the maximum concentration and conditions laid down in this Annex, with appropriate safety assessment for non-preservative use.</li> <li>• Point 4: This listing of the substance in another Annex with any restrictions to the use of that substance for other purposes is indicated by a footnote to this Annex</li> </ul>	<ul style="list-style-type: none"> <li>• ACA to lead in the discussion with Singapore, Thailand and Indonesia to address the concerns raised on the preamble text to Annex VI and to present during the ACCSB Meeting tomorrow</li> <li>• To review the safety of ingredients for other than preservative function</li> </ul>
-----	---	---	---

## 30<sup>TH</sup> ACSB MEETING SUMMARY REPORT

5.1	Biphenyl-2-ol and its salts (EU 2018/1847)	Review of EU regulation No. 2018/1847, revision of the entry for Biphenyl-2-ol and its salts in EU Annex V (preservatives)	<ul style="list-style-type: none"> <li>• Adopted the implementation by member states with the exception of Indonesia who requested for more time to review</li> <li>• With effect from 18 December 2020, only compliant products shall be made available in the market and non-compliant products shall be withdrawn from the market</li> </ul>
5.2	Phenylene Bis-Diphenyltriazine (EU 2019/680)	Review of EU regulation no 2019/680, proposal to add Phenylene Bis-Diphenyltriazine to ACD Annex VII (UV filters)	<ul style="list-style-type: none"> <li>• Adopted the implementation with immediate effect, with the exception of Thailand with a 6-month grace period</li> <li>• Phenylene Bis-Diphenyltriazine may contain impurities (N-methylpyrrolidone (NMP) and hydrazine) which are classified as CMR 1B, the level of NMP and hydrazine should be kept at trace levels</li> </ul>

## 30<sup>TH</sup> ACSB MEETING SUMMARY REPORT

5.3	2-Chloro-p-Phenylenediamine (EU 2019/681)	Review of EU regulation no 2019/681, proposal to add 2-Chloro-p-Phenylenediamine, including its sulfates and dihydrochloride salts to ACD Annex II (Prohibited substances)	<ul style="list-style-type: none"> <li>• Agreed to the proposal with a grace period of 12-18 months, to be decided at country level             <ol style="list-style-type: none"> <li>1. Effective 18 June 2020, only compliant products shall be made available in the market;</li> <li>2. Effective 18 December 2020, non-compliant products shall be withdrawn from the market</li> </ol> </li> <li>• To remove reference on its use “including eyebrow dye products and eyelash dye products” to be consistent with the rest of hair dye entries in Annex II</li> </ul>
-----	---	--	--

## 30<sup>TH</sup> ACSB MEETING SUMMARY REPORT

5.4	Climbazole (EU 2019/698)	Review of EU regulation no 2019/698, addition of entry in Annex III and revision of entry 32 in Annex V Review on the proposed entries of ACD Annex III and VI, including the types of products using Climbazole and usage levels	<ul style="list-style-type: none"> <li>• Adopted the revised and added entry in ACD Annex VI and III               <ol style="list-style-type: none"> <li>1. Annex III added entry: with immediate effect</li> <li>2. Annex VI revised entry: effective 18 June 2020 for new products and 18 June 2021, only compliant products shall be made available in the market and non-compliant products shall be withdrawn from the market</li> </ol> </li> </ul>
6.1	Silver Nitrate	Discussion on the Silver nitrate entry specific for use for eye lashes in ACD Annex III	<ul style="list-style-type: none"> <li>• ACA to present the safety review during the next ACSB meeting</li> </ul>
6.2	Salicylic acid	Review the current restrictions for Salicylic acid in ACD Annex III & VI, in relation to the new SCCS opinion (SCCS/1601/18) issued on 21 Dec 2018	<ul style="list-style-type: none"> <li>• Proposal to await EU decision following the issuance of the final SCCS opinion</li> </ul>

## 30<sup>TH</sup> ACSB MEETING SUMMARY REPORT

6.3	Mercury containing preservatives in eye area cosmetic products	Review of the use of Mercury-containing preservatives used in eye area cosmetic products, specifically thiomersal and phenylmercuric salts	<ul style="list-style-type: none"> <li>• To be discussed during the next ACSB meeting</li> <li>• ACA to check the usage of mercury-containing preservatives and if there are safe and effective alternatives for these preservatives</li> </ul>
6.4	Fluoride entry ACD Annex III	Change of allowable maximum level of Fluoride for Thailand	<ul style="list-style-type: none"> <li>• Agreed to change the maximum level of Fluoride from 1100ppm to 1500ppm in Annex III</li> </ul>
6.5	Nanometer Tooth Membrane Whitening Kit	Proposal to include Nanometer Tooth Membrane Whitening kit into the list of borderline products	<ul style="list-style-type: none"> <li>• Agreed and adopted the updated list of borderline products</li> </ul>
6.6	Hair dyes ACD Annex III	Discussion on Indonesia's proposal to remove the text "Indonesia only: Not permitted-Under review" from the 30 hair dyes in ACD Annex III	<ul style="list-style-type: none"> <li>• Agreed with the proposal to amend the entries for the 30 hair dyes in Annex III accordingly</li> </ul>
7	Joint Opinion Statements	The Task Forces presented the proposed JOS for Plastic Microbeads, Antimony and Parabens	<ul style="list-style-type: none"> <li>• Action to be deferred to the next ACSB meeting</li> </ul>
8	Process for New Materials	ACA to update if there is any request to review new materials	<ul style="list-style-type: none"> <li>• No action to be taken as there is no request to date</li> <li>• ACA to keep ACSB updated of the progress</li> </ul>

## 30<sup>TH</sup> ACSB MEETING SUMMARY REPORT

9	Other Matters	<p>4.5 N,N'-Bis(2-hydroxyethyl)-2-Nitro-p-phenylenediamine &amp; 2,6-Dihydroxyethyl-aminotoluene (EU 2017/237)</p> <p>ACA to share the industry usage data</p> <p>Member states to share PMS data</p>	<ul style="list-style-type: none"> <li>• No data available from AMS and ACA on the usage of these substances</li> <li>• Agreed to proceed with the implementation of the adopted entries for these hair dyes substances in Annex III within the agreed timeline</li> </ul>
		<p>Singapore's proposal to review the list of permitted UV filters to ascertain the safety based on current scientific information</p>	<ul style="list-style-type: none"> <li>• Singapore identified the list of 6 ingredients for safety assessment by ACA, which will be presented during the next ACSB meeting</li> <li>• Due to resource constraint, ACA requested Singapore to prioritize 2 ingredients, Avobenzonone and Methyl Anthranilate (Meradimate) for review.</li> <li>• Singapore will collaborate with ACA on the review and will present during the next ACSB meeting</li> </ul>

## 30<sup>TH</sup> ACSB MEETING SUMMARY REPORT

		<p>Singapore received queries from companies on the requirements for stem Cells Conditioning agent as ingredients in cosmetic products</p> <p>Thailand proposed to review the product classification for adhesive Wig product classification</p>	<ul style="list-style-type: none"><li>• Singapore to submit a proposal to table this topic for discussion during the next ACSB meeting agenda</li><li>• To be included as part of the agenda in the next ACSB meeting</li></ul>
